

# Prezi

## Overview

<http://prezi.com> allows students to create a prezi. This tool requires a login (email required). Prezi works well as a replacement for lessons and projects previously done in PowerPoint. This is a good tool for collaborative work as well (students can work on this at the same time). It auto saves as you work so very rarely is a project "lost".

## Content Area/Grade Level

Middle School (13 and older) and High School, all subjects

## Lesson Ideas

Graphic Organizers, research findings, autobiographies, biographies, book reports, reporting from a short story they've written, any group projects.

## Sample Lesson

Grades 3 - 5 <http://www.readwritethink.org/classroom-resources/lesson-plans/great-american-inventors-using-957.html>

Grades 6 - 8 <http://www.readwritethink.org/classroom-resources/lesson-plans/students-creators-exploring-multimedia-1088.html>

Grades 9 - 12 <http://www.readwritethink.org/classroom-resources/lesson-plans/life-multimodal-autobiography-project-1051.html>
