

# *Word Cloud App*

## Overview

<https://itunes.apple.com/us/app/word-clouds-by-abcya.com/id823682295?mt=8> Word Cloud is an app that works like Wordle or Tuxedo. Students may create a poster like image using words. Students may type the words in or copy and paste. No login is required on this app.

## Content Area/Grade Level

Grades 3-5, and Middle School

## Lesson Ideas

Character traits, Mother's Day & Father's Day cards, copying and pasting a poem or famous speech (again, the repeated words will show up larger than others), descriptions, synonyms & antonyms, finding the favorite in a poll (use one wordle with students typing in their vote/choice, then create the wordle), and posters for celebrations/events.

## Tip

The more often a word is typed the larger the word appears on the Word Cloud. Once all the words are included tap next at the bottom and your Word Cloud will appear. Students can choose the options at the top to randomize, change color, change layout and change font. Then at the option button top right (three lines in a row) students can save to photos.
