2014-2015
Mission Statement

*Purpose, Pride, Perspective in Preparation for Tomorrow’s Leaders*

**Core Beliefs**

1. We believe that all members of the organization are responsible for increasing academic rigor in order to enhance and improve student growth.

2. We believe that high expectations for all students, staff, parents, and community result in increased student performance.

3. We believe that student learning should be focused on the approved Next Generation Content Standards that will prepare students for college or career readiness.

4. We believe that all members of the organization are responsible for building positive relationships with students, parents, and community members in order to enhance community connections.

5. We believe in a proactive and systemic approach inclusive of a system of checks and balances, a chart of plans that instills accountability, and a transparent interaction with the community in order to enhance system efficiency.

**WV State Board’s Goal**

The WV Board of Education will provide a statewide system of education that ensures all students graduate from high school prepared for success in high quality postsecondary opportunities in college and/or careers.

**Goals for Randolph County Schools**

1. By 2017, 75% of Randolph County students will be proficient in English Language Arts and Mathematics. At the conclusion of the 2014-15 school year, all subgroups will demonstrate an increase toward proficiency with a growth of 5% as measured by the Smarter Balanced Assessment.

2. In 2014-15, Randolph County Schools will reduce the budget deficit by 50% as per the financial statement of September, 2014.

3. In 2014-15, Randolph County Schools will increase the graduation rate and decrease the dropout rate by two percent as reported by the WVDE.
Welcome everyone. I am grateful to have the opportunity to welcome everyone to Randolph County schools. There are many new faces in the education system and many friendly, familiar ones, too.

I would like to commend every staff member for all of their hard work and dedication to our children. I am pleased to say each one of you makes a difference in the life of a child.

Many exciting changes have taken place over the past year. There have been great improvements in all levels of education. I am honored to say that 13 out of 14 schools met A.Y.P. It is very rewarding to see that your commitment to our children has been recognized statewide.

As we embark on a new school year, great things continue to happen in Randolph County. Take the opportunity to grow and embrace these changes. I am thankful to the parents, grandparents, community business partners and volunteers that continue to assist in making a difference in the education system. Take pride in your accomplishments as you take pride in our students. Your leadership, guidance, generosity and encouragement are greatly appreciated.

I would like to close with the proverb, “It takes a village to raise a child”. By working together, we shape the lives of children, these children are our future, you don’t have to be a teacher to be a good role model.

With sincere respect,

Lisa Wamsley
President
Randolph County Board of Education
Dear Fellow Randolph County Employees,

We have embarked on another great journey in the field of education. Student achievement is our greatest challenge. We know that all students must have the best education possible to be successful. Those of you who have been in the system for several years have witnessed major changes in the world of education. Students no longer only see and hear about what is going on in West Virginia. They are truly experiencing the global impact on their lives.

As I was growing up, we had one car, my Mom stayed at home and cared for us, and coming to Elkins for groceries on Friday night was a great adventure. I have seen the landing on the moon, the assassination of President Kennedy, the explosions of Apollo 1, the Challenger at Cape Kennedy and Columbia, and the advent of giant size computers reduced to the size of your hand or smaller. In other words, the world is rapidly changing and we must face reality. We must teach our students how to think, do research, and be successful in a world that is constantly evolving. It will not be easy but we are professionals who have the responsibility to educate everyone. We must accept change, rethink what is essential for our students, and meet the challenges head on, not bury our heads in the sand and hope it goes away.

As superintendent I have made a commitment to the students of Randolph County to give them the opportunity to learn in a 21st Century school system. This system will give them the necessary learning tools needed for success. I hope and pray that each of you will embrace the change needed in your classroom to make this commitment a reality for the sake of our students’ future and, ultimately, the future of Randolph County.

Following the Proper Channels

- Always speak first with the person directly involved - the teacher, bus driver, etc. You may find that there has been a simple misunderstanding.
- Next, speak with the school principal.
- If your question or problem is not resolved by meeting with the principal, you should then speak with the administrative person in charge of the area of your concern.
- If, after following steps 1, 2, and 3, you do not feel the matter is resolved, you should make an appointment to speak with the superintendent of schools, (304-636-9150, Ext. 107).
- Finally, if all else has failed to resolve the problem, you may call a school board member:
